

I have a sugar imbalance [diabetic] and was using the Pure Herb DB.-8 and the Pure Herb Cedar Berry. I really didn't see a great deal of change in my blood sugar reading.

I am insulin dependant and need the body influence of the Pure Herb Hisbiscus Flowers so I decided to try it with the Pure Herb DB.-8.

I noticed my blood sugar numbers dropped much more and I went from taking 70 units of insulin per day to 35 units per day.

All diabetics please try it. It may help you too! I know it can't hurt.
