We thank God for Dr. W who saved our friend from dialysis. With the diagnosis of a shrinking kidney and possible dialysis, Dr. W advised us to rub the Pure Herb Arnica on the skin over the kidney area on the lower back for any nerve damage, the Pure Herb Herbal Adjustment for circulation, the Pure Herb Vitamin E with Selenium for oxygenation and the Pure Herb Black Cohosh to remove any poison.

Also, so soak absorbent gauze or cheese cloth with the Pure Herb Ol' Number 11 to lay on the area and cover it with plastic wrap and repeat for a day time application.

Within a week, there was noticeable improvement. Within two weeks voiding began with copious amounts. Her remardk was, "I'm going like a race horse."

Within three weeks the pain was gone. By the way, this lady is in her 90s and never expected a recovery like this! She is rejoicing in the new found health.

Thank you Dr. W. May God bless you!
